## PROFESSIONAL SUMMARY

Full Stack Web Developer with comprehensive training in modern web technologies from Saylani Mass IT Training. Proficient in building scalable web applications using Laravel, React, and MySQL. Strong problem-solving skills with hands-on experience developing SaaS platforms, POS systems, and conference management solutions. Passionate about writing clean, efficient code and delivering user-centric digital experiences.

## INTERNSHIP EXPERIENCE

### Web Development Intern

Iris Software Solutions — Hyderabad

Internship Program August 2025 - Feb 2026

- Developed and deployed multiple production-ready web applications using Laravel and core PHP
- Implemented role-based access control (RBAC) systems for enhanced security across projects
- Designed and optimized MySQL databases with efficient relationships and indexing strategies
- Collaborated with senior developers to build multi-tenant SaaS architectures with scalable codebases
- Created responsive frontend interfaces using React.js and Bootstrap for seamless user experiences
- Integrated third-party APIs and managed deployment processes for client projects

## PROJECTS

### Multi-Tenant SaaS POS System

Developed a comprehensive Point of Sale system for mobile shops with multi-tenant architecture. Features include inventory management, sales tracking, customer management, and detailed reporting. Implemented role-based permissions allowing shop owners, managers, and staff to access appropriate features.

Laravel MySQL Bootstrap RBAC
